

## DIRECTOR'S MESSAGE

This year's CayTube Live represents a huge amount of plain old work on the part of many, specifically Malcolm Ellis, whose name rightfully should go alongside each credit in this program, Michelle Morgan, our lead writer who stayed patiently through countless rewrites and edits, Paul De Freitas who provided the logistical support of the Society and of course the actors who worked and work-shopped the material to what it is today; Imagine that most had to create 7-10 characters each! Thank you to my lovely wife Mary-Anne for looking after the technical performance. It's great also to have Niamh back to ride herd back stage with her new protégé Ali. Thanks to all of you!
